**Dear Parent,**

Summer Vacation is finally here! It's time for us to visit our Grandparents, uncles, aunts and cousins. Some of you must be planning an outstation trip to beat the heat.

As the days will be long and hot, a lot of time should be spent indoors. This is an ideal opportunity for you to spend some time with your child and help develop his/her motor skills and concentration. Here are few interesting activities that will keep your child engrossed constructively.

**I AM SPECIAL**

Make a beautiful presentation on the topic Myself using A4 size pastel sheets. Write about your name, birthday, where you live, family members, your height, weight, likes and dislikes.

**Nature Walks are the best ways to inculcate the value of keeping fit and fine. Take them for morning/evening walks.**

Children love to explore, and there will be no better time for exploration and discoveries than summer holidays! Let your child look out for different kinds of leaves, flowers, feathers etc. You could help him/her know more about these, by identifying them and providing more

information about them. Later set up a paint station and you can use your collection of findings as paintbrushes.(On an A4 size pastel Sheet)

Let the children draw and colour a beautiful garden scene with these objects.... Sun, cloud, tree, bird, flower, grass, butterfly, boy, girl, swings etc.(On an A4 size pastel Sheet.)
